Key Benefits

- Reliable Tracking Capability
- Maximize Search Efficiency
- Easy-to-Use
- Budget-Friendly

“My husband is safe and I am calm”

My husband with Alzheimer’s comes home by bus from his day program. One day, there was a new driver who did not know to call me to meet the bus outside. If not for AngelSense, I would not have known my husband was outside, confused and trying to enter the house.

Lilia

“My granddaughter climbed the fence and jumped into a pool! I ordered AngelSense that evening.”

We have warnings on all the doors, a wooden fence... Escape proof right? The child figured out a way to climb the six foot wood fence. The neighbors down the street heard something in their backyard. There was my granddaughter, naked, swimming in their pool by holding onto a floaty. She can’t swim!! I ordered it that evening. She has not gotten away from us since.
